

“Be Inspired & Achieve Together”

8th December 2022

Dear Parent/Carer

Re: CyberFirst Girls Competition Final, Saturday 4th February 2023

Your daughter has been invited to the final of the CyberFirst Girls competition being held at De Montfort University, Leicester on the above date.

At this point we just need to know if your daughter will be able to attend and would appreciate you completing a consent form by clicking on the following link <https://forms.gle/RGfch2gRMvXoR7UU8> by Friday 9th December.

Once all the forms have been received we will confirm our participation in the event along with travel arrangements and a schedule of the day. There will be no cost to the students.

There are 13 Finals for the 2022 competition. Each Final which will consist of the top teams from each of the 9 England regions, 3 Devolved Administrations and 1 Final for the Independent Schools. The Finals will be hosted in various locations across the regions of England and in Wales, Scotland, and Northern Ireland. Teams will be competing simultaneously across all sites to be crowned the winner of their area. The venues for the Finals have all been provided by Industry partners; companies who these talented girls may want to work for in the future. All Industry partners, or in some cases Universities, are part of the CyberFirst community and are running the events on behalf of the National Cyber Security Centre (NCSC).

The team will be accompanied by myself and a colleague and students will be fully supervised by us at all times throughout the day. On previous occasions we have travelled to the venue by train leaving Nottingham around 8:00am and returning to Nottingham around 4:00pm. This will all be confirmed at a later date

We are all incredibly proud of the girls for reaching the Finals of the CyberFirst Girls' Competition 2023 and are looking forward to an exciting day out.

Yours faithfully

Mr Staples
Head of Computer Science & Creative Media
